CAPITATION FEES

that were able to pay their Q1/20 quarterly in- correct version to the new environment, and after voice, which included the annual capitation fee a couple more minor problems we were back up for your home club members.

We had 333 clubs invoiced for their annual capitation fees in March. 319 clubs managed to pay their invoices in full, which is 95.8% of clubs. Leaving just 14 clubs still owing.

All clubs from ACT, QLD, TAS and NT paid. There were 4 unpaid clubs from NSW, 7 from VIC, 1 from SA and 2 from WA. Hopefully they will all be able to pay soon.

SYSTEM OUTAGE

I am sure you all noticed the problems we were having with our website in mid-to-late June. I apologize to you all about that unfortunate situation. It was caused by our web hosting company and was beyond our control.

They migrated our environment from the old servers it was previously hosted on, to their new servers. After two previous failed attempts, with minimal (vou probably didn't even notice!) impact on our users, this third attempt was successful, in that they succeeded in migrating us to the new servers. Unfortunately, they also copied over an older version of our database, from about 27th May, even pre the May monthly update.

Obviously this was unacceptable and we requested them to copy the correct version to the new server. Something that should have been a 10 minute job. Unfortunately the hosting company **THE CENTRE** was being difficult to communicate with, or even As you may have noticed on the online News would be doing the actual work. All communica- from 1st July 2020. tion had to be done via their Helpdesk, and they the worst I have ever experienced in over 30 years to 6pm AEST. involved in the IT world.

Congratulations and thankyou to all those clubs Finally after about 12 days, they finally copied the and running on Thursday 2nd July. Because it took so long to restore our environment we delayed the end of month update from its normal Wednesday 1st July 4pm deadline until the following Monday 6th July at 10am. This would hopefully give clubs enough time to catch up!

> We had attempted to lock out users from about midday on Friday 19th June when we first discovered the problem. Unfortunately a few clubs still managed to log on and make some changes, which were lost in this whole process.

> We contacted all the clubs that we were aware of, requesting them to check/re-enter any changes that 'thought' they had previously done. All but one of those clubs responded before the monthly update was run and re-entered the changes they had previously done. Hopefully that other club will re-check their work soon.

Again, sorry for the delay and inconvenience our web hosting company has caused all of us.
