## 2004/2005 ABCD

We say goodbye to one of the smaller clubs from NSW, Kyle Bay Bridge Club, but we hope to be able to welcome them back to the Masterpoint Scheme sometimes in the future.

## **PROBLEMS WITH** NATIONAL.EXE

Because some people were having problems unzipping the Winzip created *national.exe* file. I decided to revert back to the old trusted ARJ program. Unfortunately, I for-2000 got that since that is a DOS based program, it will only accept a maximum of 8 characters for the file names.

That created another problem. The event names.txt file, which is recquired by the *nat4win.exe* to create player statements, has a name which contains 11 characters. Accordingly, the ARJ program truncated the name 10% late penalty for all accounts to event  $\sim 1.txt$  and since *nat4win* overdue for more than 90 days. To could no longer find the required event names.txt file, it simply refused to created the player statements.

The problem is easily fixed, of course! All that is required is to locate the file called *event*  $\sim 1.txt$ and then rename that to event names.txt.

KINNNNNNNNNNNNNNNNNNN

Best Wishes for the Festive Season from the Masterpoint Centre
